Design: Gabriele Assmann und Alfred Kleene

antes

A classic flat steel cantilever chair, with a distinct design and comfort with freedom of movement. The light, modern design fits well into many different interior decorative styles. Its proportions and the simple, yet effective physics model of the cantilever chair allow for upright, relaxed seating – with or without armrests. The armrests are available in an open as well as a closed version. The chair is optionally available with a larger seat or with a higher backrest. Ideal for dining or living rooms or for interior design in working areas.

Funktions	Increased comfort thanks to cantilever physics
Options	Without armrests With upholstered armrests (additional charge) With higher backrest (additional charge) Larger version (additional charge) Surface of frame: polished chrome or matt chrome.
Upholstery	Leather Fabric
Frame	Flat steel frame, chrome-plated with rubber belt spring system in the seat and backrest
Dimensions in cm	smaller version without armrests: Width 47, Depth 57, Height 87 Seat height 47, Seat depth 46 with armrests: Width 56, Depth 57, Height 87 Seat height 47, Seat depth 46 larger version Width 53, Depth 57, Height 87 Seat height 47, Seat depth 46 With or without upholstered armrests Both versions are available with higher backrests Height 93
